> PART 1010—SUSPENSION ORDERS [Suspension Order S-597] MILLER & DUMBAUGH

C. C. Miller and C. T. Dumbaugh, doing business as Miller & Dumbaugh, are contractors and builders, located at 106 East Walnut Street, Butler, Pennsylvania. In December, 1943, they began construction as building contractors, and thereafter continued construction, in remodeling a brick and frame two-story building, located at 324 South Main Street, Butler, Pennsylvania, to be used as a retail store room and two-family apartment, at a cost of approximately \$8,000, and obtaining material therefor without permission of the War Production Board. This was in violation of Conservation Order L-41, which placed a limit of \$200, on such construction. C. C. Miller and C. T. Dumbaugh were aware of the provisions of Conservation Order L-41 and their beginning this construction without ascertaining whether War Production Board approval had been granted constituted a violation of Conservation Order L-41 which was the result of gross negligence.

This violation of Conservation Order L-41 has diverted critical material to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States of America. In view of the foregoing, it is hereby ordered, That:

§ 1010.597 Suspension Order S-597. (a) From August 16, 1944, through October 16, 1944, deliveries of material to C. C. Miller and C. T. Dumbaugh, doing business as Miller & Dumbaugh or otherwise, their or its successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other order or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board. The provisions of this paragraph shall not apply to construction jobs which have been begun or contracts for construction which have been entered into by C. C. Miller and C. T. Dumbaugh, doing business as Miller & Dumbaugh, or otherwise, prior to the issuance of this suspension order.

(b) Nothing contained in this order shall be deemed to relieve C. C. Miller or C. T. Dumbaugh, doing business as Miller & Dumbaugh or otherwise, their and its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 9th day of August 1944.

War Production Board, By J. Joseph Whelan, Recording Secretary.

PART 1010—SUSPENSION ORDERS
[Suspension Order S-602, Stay of Execution]
THE WICHITA BEACON

The Wichita Beacon of Wichita, Kansas, has appealed from the provisions of Suspension Order No. S-602, issued August 11, 1944 (§ 1010.602), and has requested a stay on the ground that irreparable harm would be done its business if the Suspension Order were not stayed. The Chief Compliance Commissioner has directed that the provisions of the Suspension Order be stayed pending final determination of the appeal or until further order by the Chief Compliance Commissioner. In view of the foregoing, It is hereby ordered,

The provisions of Suspension Order No. S-602, issued the 11th day of August, 1944, are hereby stayed pending final determination of the appeal or until further order by the Chief Compliance Commissioner.

- N. S. C .- No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION I

No authorization under paragraph (b) of the order is necessary for the release or with-drawal of materials on List II or List III from a free port, a free zone, or the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States regardless of the date when such materials first entered such place. The actual importation, which is the subject of restriction under paragraph (b), is deemed to have occurred before the question of release or withdrawal arises. Also no authorization under paragraph (d) of the order is necessary for the subsequent disposition, processing, or shipment of such released or withdrawn List II and List III materials.

As to List I materials which are similarly situated, no authorization under paragraph (b) of the order is necessary for their release or withdrawal from free port, free zone, or bonded custody, but authorization under paragraph (d) of the order is necessary for their subsequent disposition, processing, or shipment unless they are shipped in bond to Canada, Mexico, or some other foreign country, in which event the foreign destination is deemed to be the place of initial storage as such term is used in the order; Provided, however, That List I materials which are imported in bond after July 2, 1942, can be shipped to Mexico, Canada, or some other foreign country without the express authorization required under paragraph (d) only if the import application filed under paragraph (b) stated that the material was being imported for the purpose of such export shipment. (Issued June 30, 1942, and amended Sept. 23, 1943.)

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M-63 (§ 1042.1) as amended:

By amendment dated December 17, 1942, the definition of material "in transit" changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the con-tinental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship, the material must have been afloat, or an on board ocean bill of lading must have been issued with respect to it, on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3

When by amendment of the order a material already on List II or List III is moved to List I and hence becomes subject to the restrictions of paragraph (c) covering the disposition, processing, transfer, or change

of location of such material, the governing date for the application of such restrictions is the effective date of the amendment by which the material was moved to List I and not the date when such material first became subject to General Imports Order M-63 (Issued May 14, 1943.)

PART 1253—BERYLLIUM

[General Preference Order M-160, As Amended Aug. 17, 1944]

Section 1253.1 General Preference Order M-160 is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of beryllium for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

- § 1253.1 General Preference Order M-160—(a) Definition. For the purposes of this order, "Beryllium" means and includes:
- (1) Ores and concentrates, including beneficiated or treated forms, containing beryllium, commercially recognized;
- (2) The element beryllium, sometimes known as "glucinum", in commercially pure form;
- (3) Any alloy containing 3% (three per cent) or more by weight of the element beryllium;
- (4) Any alloy made for resale in ingot form and containing less than 3% but not less than 0.1% by weight of the element beryllium, if made in whole or in part from scrap or secondary materials;
- (5) All chemical compounds containing beryllium as an essential and recognizable component.
- (b) Materials removed from allocation. Beginning (the effective date of this

order) War Production Board authorization is no longer necessary for delivery or acceptance of delivery of any beryllium (defined in paragraph (a) of this order) except beryllium copper covered by paragraphs (a) (3) and (a) (4).

PART 3294-IRON AND STEEL PRODUCTION [General Preference Order M-21-b-2, Direction 31

OIL COUNTRY DISTRIBUTORS

The following direction is issued pursuant to General Preference Order M-21-b-2.

Paragraph (g) (1) of Order M-21-b-2, as amended, states that any person who wishes to become a distributor of any merchant trade product from stock at a location not in operation prior to April 1, 1944, may do co only by purchasing his entire working stock from holders of idle or excess inventories. The order provides, moreover, that each location established by any percon pursuant to paragraph (g) (1) shall be considered a separate distributor, even though the location may only represent the addition of another unit to a group operated by the distributor.

These provisions are not practicable for distributors who principally corve the petroleum drilling industry. Branch warehouses of such distributors usually follow the drilliers from place to place so that material may be available on the spot to fill local emergency demands promptly.

To enable oil country distributors to operate in their normal manner, the War Production Board will consider, pursuant to paragraph (h) (5), applications for ex-ceptions from the provisions of paragraph (g) (1) of Order M-21-b-2 by distributor companies whose principal business in merchant trade products consists of furnishing such materials from stock to petroleum drillers. Each such application should be submitted in duplicate in the name of the com-pany as a whole, and not for any one or two locations, and must contain the following

information:

1. Name and home address of the oil country distributor. 2. Lecation of each branch store in opera-

tion prior to April 1, 1844.

3. The bace tonnage for each merchant trade product group hold by each producer for each branch warehouse.

4. A complete concolldated report on Form WPE-2032 covering the operations of the company as a whole at all points during the first six months of 1944. Copies of this form may be obtained from the nearest War Production Erard Regional Office.

5. A customent of the relief requested and the reasons why the distributor believes his company chould be granted relief from cer-tain of the provisions of Order M-21-b-2.

Frevious instructions issued to individual distributors under dates of November 22, 1943, November 39, 1943, or January 3, 1944, are hereby cancelled. However, if, on or after April 1, 1944, any oil country distributor has been given an exception by the War Production Board from the providions of paragraph (g) (1) of Order M-21-b-2, such exception is valid and he need not apply under this Direction.

All applications filed pursuant to this Direction 3 chould be addressed to the Warehouse Branch, Steel Division, War Production Board, Room 1523B Social Security Building, Wachington 25, D. C.

Nom: The reporting provisions of this order have been approved by the Eureau of the Budget pursuant to the Federal Reports Acts of 1942.

Issued this 17th day of August 1944.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[RMPR 156, Amdt. 1]

CANNED MEAT

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Revised Maximum Price Regulation No. 156 is amended in the following respects:

- 1. Section 7 (c) is added to read as follows:
- (c) Ceiling prices for sales of sterile canned meat by intermediate distributors. (1) An "intermediate distributor" is a person, other than a "wholesaler" or "marine provisioner" under MPR No. 421, whose entire business in connection with a brand, type and container size of canned meat consists of its purchase and resale. (Examples of intermediate distributors under this regulation are "wagon wholesalers" excluded expressly from MPR No. 421; independent hotel supply houses and marine provisioners who are not wholesalers under MPR No.

421 because they fabricate meat cuts to the extent that the majority of their food sales are not of products which they purchase for resale and distribute without materially changing their form; and manufacturers who purchase and resell certain canned meat products.) The ceiling price for such canned meat sold by an intermediate distributor shall be determined as provided in this paragraph (c).

(2) The ceiling price for a brand, type and container size of sterile canned meat sold by an intermediate distributor of such brand, type and container size of sterile canned meat shall be as follows:

(i) Prior to the first delivery from his supplier to an intermediate distributor of a brand, type and container size of sterile canned meat priced by the supplier under this regulation the intermediate distributor's ceiling price for such canned meat item shall be the ceiling price which he had immediately prior to August 4, 1944. After the first delivery from his supplier, the intermediate distributor's ceiling price for such a brand, type and container size of sterile canned meat shall be determined as provided in subdivisions (ii), (iii) and (iv) below.

(ii) If his supplier's ceiling price under this regulation is less than the supplier's ceiling price under the maximum price regulation previously applicable to the supplier, the intermediate distributor shall subtract the difference from the ceiling price which he had immediately prior to August 4, 1944. When an intermediate distributor first receives a delivery of a canned meat item from his supplier after August 3, 1944, under this subdivision (ii) he may no longer use his former ceiling price.

(iii) If his supplier's ceiling price under this regulation is the same or greater than the supplier's ceiling price under the maximum price regulation previously applicable to the supplier, the intermediate distributor's ceiling price shall be the ceiling price which he had immediately prior to August 4, 1944.

(iv) If an intermediate distributor did not have a ceiling price for any brand, type and container size of sterile canned meat immediately prior to August 4, 1944, his ceiling price for such brand, type and container size of sterile canned meat shall be determined by the provisions of § 1499.3 (a) of the General Maximum Price Regulation, substituting for the purposes of this subdivision (iv) the term "Revised Maximum Price Regulation No. 156" whenever the term "§ 1499.2 (a)" is used in § 1499.3 (a) of the General Maximum Price Regulation.

(v) The filing requirements of section 8 shall not be applicable to intermediate distributors.

- (vi) The provisions of section 6 (c) dealing with notification to buyers of new ceiling prices are applicable to sales and deliveries by intermediate distributors under paragraph (c) (2) (ii) of this section.
- (3) Notwithstanding any other provision of paragraph (c), no intermediate distributor of canned meat shall sell or deliver such canned meat to another

intermediate distributor or a wholesaler or marine provisioner at a price higher than the ceiling price of his own (the selling intermediate distributor's) supplier.

- 2. Section 11 (a) is amended to read as follows:
- (a) Ceiling prices of semi-sterile canned meat products given dollar-and-cents prices on deliveries to persons other than Group 1 and 2 retailers or purveyors of meals. The ceiling price for a delivery to a person other than a Group 1 and 2 retailer or a purveyor of meals, of a semi-sterile canned meat product meeting the specifications for such product established by section 13 (b) shall be determined by

(1) Adding to the base price specified for such product in section 12 (a) the zone addition specified in section 12 (b) for a carload delivery, or less-than-carload delivery, whichever is made, for the zone in which actual physical possession of the product is taken by the buyer, and then

(2) Subtracting from the figure obtained by following paragraph (a) (1) above 25 cents per hundredweight if delivery of the product is not made by the seller to the buyer at the buyer's place of business.

3. Section 11 (b) is amended to read as follows:

(4) For the purpose of this paragraph, the skim milk and butterfat which was classified as "net pooled Class I skim milk" and "net pooled Class I butterfat" during each delivery period shall be considered to have been first that skim milk and butterfat which was received from producers at such handler's plant located in the 0-20 mile zone, than that skim milk and butterfat which was received from producers at such handler's plants in series beginning with plants located in the freight zone nearest to New Orleans,

(c) Class II prices. Each handler shall pay producers, in the manner set forth in § 942.8 for skim milk and butter-fat purchased or received from them during each delivery pariod and classified as "net pooled Class II skim milk" and "net pooled Class II butterfat" not less than the prices per hundredweight set forth in the following schedule:

(d) Class III price. Each handler shall pay producers, in the manner set forth in §.242.8 for skim milk and butterfat purchased or received from them during each delivery period and classified as "net pooled Class III skim milk" and "net pooled Class III butterfat" not less than the prices per hundredweight set forth in the following computations:

(1) The price per hundredweight of skim milk shall be computed by the market administrator by: subtracting 7 cents from the average price per pound of non-fat dry milk solids and multiplying the result by 7.5. The price per pound of non-fat dry milk solids to be used shall be the average of the carlot prices for non-fat dry milk solids, roller process, at Chicago as reported by the United States Department of Agriculture (or such other Federal agency as may be authorized to perform this price reporting function) during the delivery period preceding that in which such skim milk was received.

(2) The price per hundredweight of butterfat shall be computed by the market administrator by: Multiplying by 100 the average wholesale price per pound of 92-score butter in the Chicago market as reported by the United States Department of Agriculture (or by such other Federal agency as may be authorized to perform this price reporting function) during the delivery period preceding that in which such butterfat was received.

13. Delete § 942.6 and substitute therefor the following:

§ 942.6 Application of provisions—(a) Handlers who are also producers. Sections 942.5, 942.7, 942.8, and 942.9 shall not apply to the handling of milk by handlers whose sole sources of supply are receipts from their own farm production or from other handlers.

(b) Payment for excess skim milk or butterfat. If a handler, after subtracting receipts from other handlers, and receipts from other sources, has disposed of skim milk or butterfat in excess of the skim milk or butterfat which, on the basis of his reports, has been credited to his producers as having been purchased or received from them, the market administrator in computing the net pool obligation of such handler pursuant to § 942.7 (a) shall add an amount equal to the value of such skim milk or

butterfat in accordance with its value at the price for the class from which such skim milk or butterfat was subtracted pursuant to § 942.4 (e) (9).

14. Delete § 942.7 and substitute therefor the following:

§ 942.7 Determination of uniform price to producers—(a) Net pool obligation of handlers. The net pool obligation of each handler for skim milk and butterfat received from producers during each delivery period shall be a sum of money computed for such delivery period by the market administrator by: multiplying, respectively, the pounds of "net pooled skim milk" and "net pooled butterfat" in each class by the respective class prices, and adding, respectively, any amounts, pursuant to § 942.6. The sum of the two amounts shall be such handler's total pool obligation.

(b) Computation of the uniform price. For each delivery period the market administrator shall compute the uniform price per hundredweight of skim

milk, butterfat, and milk by:

(1) Combining into one total the net pool obligations for skim milk of all handlers who made payments for the previous delivery periods, and combining into one total the net pool obligations for butterfat of all handlers, who made payments for the previous delivery periods;

(2) Adding respectively the amounts computed by multiplying respectively the total hundredweight of skim milk and buterfat received from producers at plants located in each freight zone farther from New Orleans than the 61-70 mile zone by the appropriate zone differential set forth in the schedule pursuant

to § 942.5 (b) (2);

(3) Subtracting respectively the amounts computed by multiplying respectively the total hundredweight of skim milk and butterfat received from producers at plants located in each freight zone nearer New Orleans than the 61 to 70 mile zone by the appropriate zone differential set forth in the schedule pursuant to § 942.5 (b) (2);

(4) Adding respectively an amount equal to one-half the unobligated balances in the skim milk and butterfat

settlement funds;

(5) Dividing respectively the resulting sums by the hundredweight of "net pooled skim milk" and "net pooled butterfat"; and

(6) Subtracting respectively not less than 4 cents nor more than 5 cents. The results shall be known respectively as the uniform price per hundredweight for (i) skim milk and (ii) butterfat purchased or received from producers at plants located in the 61–70 mile zone. The uniform price for milk containing 4.0 percent butterfat received from producers at plants located in the 61–70 mile zone shall be the sum of the values of 96 pounds of skim milk and 4 pounds of butterfat at the respective uniform prices.

(c) Announcement of prices. (1) On or before the 6th day of each delivery period, the market administrator shall notify all handlers and make public announcement of the class prices for skim milk and butterfat received from producers during the current period.

(2) On or before the 10th day of each delivery period the market administrator shall notify all handlers and make public announcement of the computations pursuant to (b) of this section, of the uniform price per hundredweight of skim milk, butterfat, and milk containing 4.0 percent butterfat received from producers during the preceding delivery period.

(d) Computation of pool debits and pool credits. On or before the 10th day after the end of each delivery period the market administrator shall:

(1) Compute the amount by which each handler's net pool obligation for skim milk and butterfat is greater or less respectively than the sum obtained by multiplying the hundredweight of skim milk and butterfat received from producers by the appropriate uniform price. This amount shall be known as such handler's pool debit or pool credit, as the case may be, and shall be entered upon such handler's account.

(2) Notify each handler of the amount of such handler's (i) net pool obligation and (ii) pool debit or pool

credit.

15. Delete § 942.8 and substitute therefor the following:

§ 942.8 Payment for milk (a) The amount of each handler's total pool obligation shall be distributed among producers in the following manner:

(1) On or before the 25th day of each delivery period each handler shall make payment to each producer at not less than \$3.00 per hundredweight for the milk received from such producer during the first 15 days of such delivery period.

(2) On or before the 15th day of each delivery period, each handler shall make payment to each producer at not less than the appropriate uniform price per hundredweight for skim milk and butterfat received from such producer during the previous delivery period, minus the amount of the payment pursuant to (1) of this paragraph.

(3) On or before the 12th day of each delivery period, each handler shall pay to the market administrator for payment to producers through the producer-settlement fund the amount of such handler's pool debit for the previous

delivery period.

(4) On or before the 15th day of each delivery period, the market administrator shall pay from the producer-settlement fund to each handler for payment to producers the amount of such handler's pool credit for the previous delivery period: *Provided*, That the market administrator may offset any such payment due to any handler against payments due from such handler.

(b) Location differentials. Each handler, in making the payments prescribed in (a) of this section, shall adjust the uniform price with respect to all skim milk and butterfat received from each producer at such handler's plant not located in the 61-70 mile zone by the amount per hundredweight specified in the table pursuant to § 942.5 (b) (2).

(c) Producer-settlement fund. The market administrator shall establish and

maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to (a) (3) and (d) of this section and out of which he shall make all payments to handlers pursuant to (a) (4) and (d) of this section.

(d) Adjustments of errors in payments. Whenever verification by the market administrator of reports or payments of any handler discloses errors in payments to the producer-settlement fund made pursuant to (a) (3) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billing, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler pursuant to (a) (4) of this section, the market administrator shall, within 5 days, make such payment to such handler: Provided, That the market administrator may offset any such payment to any handler against payments due from such handler. Whenever verification by the market administrator of the payment by a handler to any producer discloses payment to such producer of an amount which is less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

(e) Adjustment of overdue accounts. Any balance due pursuant to this section to or from the market administrator on the 25th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of 1 percent, effective the 26th day of such month.

16. Delete § 942.9 (a) and substitute therefor the following:

§ 942.9 Expense of administration— (a) Payment by handlers.
